

TABLE OF CONTENT

1. *Ludmila Dulebová, Ján Varga, Emil Spišák*: The study influence of nanofillers on selected properties of nanocomposites.....
2. *Łukasz Majewski, Hubert Debski, Ludmila Dulebová*: New concepts of a rotational barrel segment for a new generation extruder.....
3. *Ivan Gajdoš, Janusz Sikora, Emil Spišák, František Greškovič*: Simulation analysis of single screw extruder in Ansys Polyflow.....
4. *Ján Varga, Ludmila Dulebová*: Selected properties of polymer composite after radiation cross-linking.....
5. *António Gaspar-Cunha*: Computational assessment of the rotational barrel segment located on the metering zone of an extruder.....
6. *António Gaspar-Cunha*: Global Extruder Modelling: Active grooved feed section, rotational barrel segment and special screws.....
7. *Lino A. Costa, René S. Pinto, António Gaspar-Cunha*: Introduction to evolutionary multiobjective optimization.....
8. *Janusz W. Sikora, Paweł Wymulski, Jan Varga*: New concepts of a special screw for a new generation extruder.....
9. *Oleh Suberlyak, Volodymyr Krasinskyi, Victoria Zemke, Natalia Chopyk*: Impact of polyolefin ratio on the processability of raw material in extrusion processes..
10. *Volodymyr Levytskyi, Andrii Masyuk, Khrystyna Kysil, Bogdan Savchenko, Volodymyr Skorokhoda*: Rheology of melts of polyamide 6 and polypropylene composites with modified silicate filler.....
