PREFACE	5
1. INTRODUCTION	7
1.1 Definition, classification and requirements for production machines	7
1.2 Functional groups of production machines	11
2. TURNING MACHINES AND CENTRES	23
3. MACHINE TOOLS FOR MACHINING NON-ROTATING PARTS	41
3.1 Drilling machines	41
3.2 Boring mill machines	45
3.3 Milling machines	50
3.4 Machining centres for machining of non-rotating parts	56
4. MACHINE TOOLS FOR FINISH MACHINING	61
4.1 Grinding machines	61
4.1.1 <i>Centre grinding machines</i>	61
4.1.2 <i>Centreless grinding machines</i>	64
4.1.3 <i>Grinding machines for grinding of holes</i>	67
4.1.4 <i>Surface grinding machines</i>	68
4.1.5 <i>Tool grinding machines</i>	69
4.2 Honing machines	70
4.3 Lapping machines	72
4.4 Superfinishing machines	73
5. MACHINE TOOLS WITH LINEAR MAIN CUTTING MOVEMENT ...	75
5.1 Planing machines	75
5.2 Shaping and slotting machines	77
5.3 Broaching machines	81
6. NON-CONVENTIONAL MACHINES	85
6.1 Abrasive Flow Machining (AFM).....	86
6.2 Electrical Discharge Machining (EDM).....	87
6.3 Electrochemical machining (ECM).....	88
6.4 Chemical Machining (CHM).....	89
6.5 Ultrasonic Machining (USM).....	90
6.6 Abrasive Jet Machining (AJM).....	92
7. METAL-FORMING MACHINES	98
8. HAMMERS	116
9. SCISSORS	127
10. CASTING MACHINES	134
11. WELDING AND CUTTING MACHINES	147
12. MACHINES WITH PARALLEL KINEMATICS	159
