HACK YOUR IOT SOLUTION IN THE WORLD OF INDUSTRIAL AUTOMATION

WHAT YOU GET

A wide variety of technologies: Access to industrial software and automation products

Workshops: Before and during the event get support from our hack coaches from various industry experts

Inspiring atmosphere: Being surrounded by a modern and inspiring working environment

Prizes: The winners in the respective categories can look forward to great prizes

Travel costs: We cover the travel expenses and full board for the participants

Worldwide audience: The pitches will be streamed online

HOW TO APPLY

Show us why you are exactly the right candidate for this hackathon! We are curious to hear about your ideas, skills and experience.

100 selected participants will get free travel to Germany and accommodation in Freiburg for the event. Be one of them and send us your application!

WHO YOU ARE

Computer science, programming, mechatronics, robotics, automation engineering, electrical engineering, economics... It's not just about developing, we also value your marketing and business skills.

YOU HAVE AN INSATIABLE CURIOSITY FOR SOLVING TASKS AND THINKING IN NEW WAYS?

Then the SICK Solution Hackathon is the right challenge for you.

In addition to fun, nice people and exciting topics,
great prizes await the winning teams!

No team? No worries! Apply and find the right team colleagues
to work with during our Hackathon – and beyond.

Become part of it and apply now!
